

WINTER 2017/18 STORAGE RATES

All winter storage options include winterizing the boat's engine (fogging cylinders, disconnecting all water lines, checking gear oil for water contamination). Batteries are stored in heated premises and charged intermittently. Batteries receive full charge upon summerizing. All unsecured items in the boat (with the exception of paddles and life jackets) are removed and stored in a customer-specific bin in locked premises over the storage period. All boat storage includes a basic exterior hull wash.

Covered Storage

Outboard: \$50 per foot

Inboard/Outboard: Add \$95 / boat

Inboard: Add \$150 / boat

Shrinkwrap Storage

Outboard: \$600 / boat + \$18 per foot
